

## **YELLOW PAGES BANNER AD**

Headline: Only a **NOTARY WILL** saves **BIG MONEY**  
and ensures **100 % PRIVACY PROTECTION!**

Para 1: A **Notary Will** is the only type of Will that does not require the very costly and very public Court verification process known as **Probate**, when settling an estate.

Para 2: If you have a **Lawyer's Will, Handwritten Will** or **Do-it yourself Will kit**, that all require this additional step of **Probate**, then:

1. You will have to spend an extra \$1,500-\$2,000 in legal fees, court costs and bailiffs before you can settle your Estate. For a couple, this could amount to an additional expense of **\$3,000-\$4,000**.

2. Your Will becomes part of the Public Court records when your Estate is being settled. By being open to the Public, prying individuals and predators can access the contents of your Will, learn the details of your bequests and **possibly take advantage of your loved ones**, when they are most vulnerable.

To help your loved ones avoid the heavy financial burden and public disclosure problem created by **Probate**, make sure that you and your spouse have formal **Notary Wills!**

Para 3: Call the Will & Estate Planning experts at **Snowdon & Associates** to obtain your own formal **Notary Wills** and save big money, and ensure 100% privacy protection for your loved ones.

**A Notary Will = the 100% Solution!**
